

Scoops Inc. Inventory Steps

Step 1

At the beginning of each week, staff at each location gather what additional inventory is needed for the upcoming week based on forecasted sales volume.

Step 2

Store manager reviews the request and submits the inventory request to accounting.

Step 3

Accounting creates Purchase Orders for each store and submits them to the supplier for delivery.

Step 4

By the end of the week, the supplier delivers the inventory to the store locations.

Scoops Inc. Inventory Steps (continued)

Step 5

The supplier contact will email accounting a written confirmation of the inventory delivery.

Step 6

Accounting updates the inventory system with the quantity of goods listed on the Purchase Order.

Step 7

The supplier provides an invoice to accounting with the cost of the material to be paid.

Step 8

Accounting will process the invoice and pay it once they verify that the purchase order details, the supplier's invoice, and the delivery confirmation (received goods record) agree.
